VARIETY CONCERT

Friday 8th November 1996

at

The Haberdashers' Monmouth School for Girls

in aid of

**The Bridges Centre Building
Appeal**

A message from the Bridges Centre

The Bridges Centre has been in existence for ten years during which it has been expanding and developing its philosophy of "building bridges between the people of this community, regardless of age or ability within the one centre". To develop this philosophy still further it has been decided to build a new purpose designed building. You will all realise that this is an ambitious and expensive project and the Centre is delighted to welcome your support here tonight. Plans are well in hand and it is hoped that a statement will be made shortly to the press giving all the details in the near future.

It is impossible to give full details of the work of the Centre in such a short space, however, one fact is worth stating. Over the past year an average of six hundred people have used the Centre each week and there is a band of over seventy volunteers who give of their time to help run it. As one member put it when asked how his family was, "Which family, my Bridges Centre family or my own?"

An evening like tonight goes along way to help swell our Building Fund, especially as everyone performing or helping has given freely of their time. All at the Centre and especially the Executive Committee would like to thank you all for your generous support tonight.

If you would like to know more about the Centre please call in or phone 01600 715638

The Management Team

Stage manager	Alys Dyer
